Holistic Learning

WHY CHOOSE US?

Learning Chinese is hard! It's even harder to understand Chinese culture and Chinese people. We want to help people understand better in Chinese culture and Chinese people through the Chinese language. Furthermore, we will make the language learning much fun and easy!

As a Chinese language and cultural instructor, I am happy to hear my student's say: "Now I understand why people do or say that!". There was in one class which I taught "mǎmǎhūhū" (so-so). I explained that Chinese people often use ambiguous words when we respond the questions and requests. It takes our time to make the final decision. We also take "guanxi" (relationship) into consideration very much.

CLASS VENUES:

We are happy to offer a convenient location and a Chinese culture environment in Tanjong Pagar.

LANGUAGE LEARNING:

Qualified teaching , fun teaching style and our own practical materials will enable students to speak Chinese language and understand Chinese culture in a short term. 6 levels of Chinese course with a maximum of 6 students per class, each learner will get enough personal attention.

CULTURAL ENHANCED EVENTS:

Learners have the opportunities to speak and practice Chinese Language with local Chinese people and to build a network with people who has experienced and different views in China and Chinese culture.

If you take an interest to what we do, and wish to connect with me to find out more about how you can bridge the Chinese gap, please do not hesitate to reach out at annyli@explorechinese.co.

ABOUT US

There is no longer any doubt that China is fast expanding to become one of the world's greatest superpowers.

But concurrently, many companies and professionals find today that they're unable to completely understand business with the Chinese, from both a linguistic and cultural standpoint.

Most think that understanding the Chinese language is good enough as prerequisite to do business with them.

It couldn't be further from the truth.

With over 5,000 years of history and culture, the Chinese have a unique way of conducting business and relationships (otherwise known as guanxi) that a foreign tongue simply cannot master without specialised help of some kind.

That is where we come in.

We specialise in helping businesses and professionals, offering customized classes of Chinese language on every level and lectures, we use these lessons to close the bridge of understanding between the two sides. Our prerogative is to not just coach you the Mandarin tongue, but also to help you understand the way the Chinese think and rationalise, so that you can leverage that understanding to your business advantage.
